

The Drôme on the Web

" click and go "

www.ladrome-dispo.com

Right up to the last minute, make your bookings in complete freedom.

The Drôme, the first "Open System" department

The Drôme now provides all interested parties with access in real time to accommodation availability, thus facilitating a rapid response for professionals to fluctuating supply and demand (special price offers, last minute bookings) and much simpler access for customers and professionals alike.

The novelty of the system resides in the size of the operation, which covers the entire territory of the Drôme, all categories of accommodation combined (hotels, chambres d'hôtes, "maisons familiales", furnished lodgings, chalets on camp sites, etc.).

In a matter of a few clics, internet users can book their holiday in the Drôme.

Since summer 2005: Availability of the system to promote all activities and events in the Drôme (tickets, equipment hire, etc.).

Everything you need to choose your holiday location or weekend destination

New : throughout this document our mascot "**Dromine**", a diminutive and sporty beaver girl, will point out the sites and products which are most appropriate for children and families.

© Ludonature

And you will be able to see **Dromine** in the game available from :

http://www.drometourisme.com/DROME_DES_ENFANTS/centre_accueil.asp
La Drôme des Enfants (suggested age 6-10 yrs)

How can we help our little Dromine find the way back to her hut? A questions and discovery trail in a setting where vultures, sheep and beavers rub shoulders with each other, but also where the activities are in tune with what children like doing: play area and donkey rides

Access is also granted to parents so that they can have a look at what their cherished little ones will be doing.

Watch this space : New version of ladrometourisme.com , some time in the first three months of 2006.
